Honorable Planning Commissioners of San Luis Obispo County, Planning
Department:

Please accept these comments and enter them into the record, as I am not able to travel at this time. I am a multi-generational resident of Monterey County. I did go to Cal Poly back in my day. I have always advocated renewable, clean energy for all of our needs, and now the technology is finally catching up. The risks are far too great for any benefit this oil train project might bring to SLO or the region.

My major concern is public safety. As a former ICU nurse at our County Hospital, I know our resources are pressed already, and this project would increase our risk of bad outcomes too much to make it an acceptable choice.

I urge you, for the sake of the whole region, to heed the advice of your staff and reject the permit for Phillips 66 oil train project and protect the health and safety of the public at large.

Very respectfully,

Patricia Domingo
498 Laine Street
Monterey, CA 93940
